TABLE DES MATIÈRES

FIERS, F. & PANDOURSKI, I., Redescription of *Speocyclops orcinus* KIEFER, 1937 (Copepoda Cyclopoida Cyclopidae) from the type locality, Cave Iriberi, in Southern France..... 5

SAVATENALINTON, S. & MARTENS, K., Redescription of *Hemicypris mizunoi* OKUBO, 1990 (Crustacea, Ostracoda) from Thailand, with a reassessment of the validity of the genera *Hemicypris* and *Heterocypris*..... 17

INHOUDSTAFEL

WOUTERS, K. & MARTENS, K., Three further new species of the *Cyprideis* species flock (Crustacea, Ostracoda) from Lake Tanganyika (East Africa)..... 29

D'UDEKEM D'ACUZ, C., Shelf and abyssal *Liljeborgia* BATE, 1861 of the Southern Ocean (Crustacea, Amphipoda, Liljeborgiidae) 45

Instructions for contributors

The I.R.Sc.N.B./K.B.I.N. Bulletin is published annually in three series: Biology, Entomology, Earth Sciences.

Only original contributions will be considered, they can be submitted in English, French, German or Dutch. An editorial committee will referee all papers; its decision is final, and will be communicated to the author(s) as quickly as possible. Papers not conforming to the present instructions will be refused.

Principally, there is no limit to the length of the papers submitted. However, in certain cases and after consulting the author(s), either shortening of the text or a financial contribution may be requested. Manuscripts should be sent to the Editor of the Series concerned.

After publication, a free PDF-file on CD-ROM will be made available for each contribution. Each author also receives a free printed copy of the volume of the Series concerned.

Text

Articles should be submitted in their final form (three copies) on DIN A4 paper, typed only recto, double-spaced throughout and with margins on both sides of the text (4 cm on the left side). Name and professional address of the paper's author(s) should be placed after the reference-section. An article must be provided with a title, and a "running head", not exceeding 35 characters. Abstracts should be written in English and in at least one other language. Each abstract should be followed by 3 to 6 key-words.

Bibliographic references in the text should indicate the name of the author (in small capitals) and be followed by the year of publication, together with the exact page reference (if appropriate), both between brackets. Original illustrations with two extra copies should be submitted with the manuscript. The author(s) should indicate in the margin of the text where the figures and tables are to be inserted. In taxonomic papers synonymies must be as precise as possible.

Short contributions: for papers, not longer than 4 printed pages (presenting new results of a topical subject) which can be submitted up to two months before printing. These manuscripts must also be submitted on CD-ROM or floppy (WORD).

Literature cited

Bibliographic references should be classified alphabetically according to the authors' names. Include only papers mentioned in the text of the paper. Do not abbreviate the titles of journals. Examples are as follows:

GERY, J., 1977. Characoids of the World. Tropical Fish Hobbyist Publications Inc. Ltd., Neptune City, U.S.A., 672 pp.

HAQ, B.U., 1984. A synoptic review of 200 million years of ocean history. *In:* HAQ, B.U. & MILLIMAN, J.D. (Editors), Marine Geology and Oceanography of Arabian Sea and

coastal Pakistan. Van Nostrand Reinhold, London, pp. 201-232.

JAILLARD, E., BENGSTON, P. & DHONDT, A.V., 2005. Late Cretaceous marine transgressions in Ecuador and northern Peru: A refined stratigraphic network. *Journal of South American Earth Science*, **19** (2): 307-323.

STEURBAUT, E., MAGIONCALDA, R., DUPUIS, C., VAN SIMAEYS, S., ROCHE, E. & ROCHE, M., 2003. Palynology, paleoenvironments and organic carbon isotope evolution in lagoonal Paleocene/Eocene boundary settings in North Belgium. *In:* WING, S.L., GINGERICH, P.D., SCHMITZ, B., & THOMAS, E. (Editors), Causes and consequences of Globally Warm Climates in the Early Paleogene. *Geological Society of America Special Paper*, **369**: 291-317.

Tables

Tables should be type-written on separate sheets, and should be numbered consecutively using arabic numerals. Each table must have a legend, and must have the name of the author.

Illustrations: figures, photographs, plates

Drawings, diagrams, photographs and plates must be of good quality. Authors must keep the size of the Bulletin in mind (17.6 x 24.5 cm for a full page, and 8.5 x 24.5 for one column) when preparing illustrations, and when necessary indicate the reduction. Each illustration must carry the name(s) of the author(s) and the number of the illustration. The legends of the illustrations should be typed on a separate page or pages. Symbols used in the illustrations are to be defined in the legends. It is strongly advised to insert a scale on drawings and photographs.

General remarks

The names of genera, species and Latin words must be in italics throughout the manuscript. Authors are requested to use SI system symbols. Footnotes should be avoided. Place acknowledgements at the end of the text, just before the bibliographic references.

Proofs

Authors will receive one and if necessary two proofs. These must be returned within the time limit indicated. If this does not happen, the publication of the paper will be postponed automatically to a later date. Make corrections in red in the margin using conventional symbols. Each change to the original text made in proof stage will be charged to the author.
