Of this very interesting group of parasites of bats the collection of H. R. H. the Prince and the Princess Leopold of Belgium contained two specimens only, belonging to a single species.

## ***Cyclopodia horsfieldi* DE MEIJERE.**

2 ♀♀ from *Pteropus* spec. collected on the small Island in the lake of Pendjaloe, Java, 31.XII.1928.

This is the most common *Nycteribiid* on *Pteropi* in the Dutch East-Indies.
