Toutes les publications du Service Géologique de Belgique - Mémoires n° 1 à 37 et Professional Papers n° 1 à 267 - sont reprises dans les listes bibliographiques ,objet de notre Professional Paper. Les codes utilisés ont été décrits dans le Livret Guide (Professional Paper n°265 - 1993/7). Pour rappel, les listes bibliographiques reprennant les publications de la Société Géologique de Belgique (Liège) ont fait l'objet du Professional Paper n° 266 - 1993/8. Un travail identique est en cours pour les publications de la Société belge de Géologie.

COLONNE 1 :	Elle renseigne le volume contenant la publication ainsi que le numéro de la première page. Dans le cas présent, l'article est contenu dans le memoire n°21, de 1987					
COLONNE 2 :	Renseigne le nom de l'auteur ou du premier auteur si la publication est une oeuvre commune. Le texte cité en exemple est de DRESEN,R.					
COLONNE 3 :	La troisième colonne localise géographiquement la publication en signalant les numéros des planchettes géologiques concernées. ¹					
COLONNE 4 :	Elle localise la publication dans l'une des provinces belges ou dans un pays limitrophe.					
COLONNE 5 :	La publication est placée dans une unité géologique régionale tel le Synclinorium de Namur (SYNAM), ou en ce qui concerne le cas présent le varisque du Bassin de Campine et le secondaire de ce bassin . Définir avec exactitude les divers domaines adoptés n'est possible qu'à l'aide des cartes et de la liste des "CODES DOMAINES GEOLOGIQUES".					
COLONNE 6 :	L'avant-dernière colonne renseigne les niveaux stratigraphiques abordés par la publication. L'exemple proposé concerne le Paléozoïque, plus spécifiquement le Viséen, et le Mésozoïque, pro partte Crétacé. ² Le décodage de cette colonne se fait en utilisant la liste "CODES STRATIGRAPHIE".					
COLONNE 7 :	Enfin, les divers thèmes abordés par l'auteur sont cités dans la dernière colonne. Les codes utilisés sont donnés dans la liste "CODES THEMES".					

¹-pour rappel, la planchette géologique, quelle que soit son échelle, couvre la même région que la carte IGN au 1/25000. Si le numero de planchette est suivi de W ou E, la publication aborde un domaine inclus dans la moitié Ouest ou Est de la carte.

²-Les attributions stratigraphiques sont celles données par les auteurs.
