

CENTENARY SYMPOSIUM

Brussels, October 10-15 1987

OCTOBER 12th 1987

Deep seismic and drillings.

Co-organized with the - Société géologique de Belgique  
- Belgian Geological Survey

- . Matthews, D.J. - U.K. - Deep seismic investigations in the U.K.
- . Cazes, M. - F. - Deep seismic investigations in France.
- . Meisner, R. - F.R.G. - Deep seismic investigations in the F.R.G.
- . De Voogd, N. - NL - The Dutch Deep seismic Programme.
- . Bouckaert, J. - B. - First results of the Belgian Geotraverse 1986.
- . Bless, M.J.M. & Bouckaert, J. - NL & B. - Suggestions for a deep seismic investigation north of the Variscan mobile belt in the SE-Netherlands.
- . Betz, D. - F.R.G. - Geotraverse Hohes Venn 1985.
- . Blundell, D.J. - U.K. - Deep seismic profiling across Europe.
- . Delmer, A. - B. - The St.-Ghislain Borehole (Belgium).
- . Graulich, J.M. - B. - The Havelange Borehole (Belgium).
- . Behr, H.J. - F.R.G. - Approaches and organisation of the "KTB" project in Oberfalz.

OCTOBER 13th 1987

Centenary meeting

- . François, A. - Mises au point sur la géologie de l'Arc cuprifère du Shaba.
- . Loy, W. - Hydrogéologie : wetenschap en toepassing.
- . Dejonghe, L. - Les minéralisations en Belgique.
- . Martin, H. & Sondag, F. - Tendances actuelles en prospection géochimique. Exemples en milieux tempérés et tropical.
- . Fortems, G. - Apport de la Belgique dans la recherche pétrolière.
- . Beugnies, A. - Discours académique de clôture.

LOCALISATION

Institut royal des Sciences naturelles de Belgique  
Koninklijk Belgisch Instituut voor Natuurwetenschappen  
31 r. Vautier st.  
1040 BRUXELLES/BRUSSEL  
Tel. 02/648.04.75.

EXCURSIONS

- 10/10 : Visean - Namurian beds in Belgium.
- 11/10 : Stratigraphical limits within the Devonian with special attention to the auxiliary stratotype of Middle/Upper Devonian boundary at Nismes. Sections showing Co/Gv and F/Fa boundary will also be visited.
- 14/10 : two-days excursion organised by "the F.N.R.S. Contact-group of the Geology of the Tertiary sediments of Belgium".
- 15/10 : the stratotypes of the Rupelian (Oligocene) and Ypresian or Ieperian (Eocene).
- 15/10 : the stratotypes of the Tongrian (Oligocene), Landenian and Heersian (Paleocene).

REGISTRATION

SURNAME . . . . . GIVEN NAME . . . . .  
COMPANY/AFFILIATION . . . . .  
MAILING ADDRESS . . . . .

I am member of the Société belge de Géologie/Société géologique de Belgique

I will attend :

- the Deep-Drilling Conference (500,- FB) YES/NO
- the Centenary meeting (free) YES/NO
- the Pre-Congres excursion - Devonian (1000,- FB/500,- FB) YES/NO
- Carboniferous (1000,- FB/500,- FB) YES/NO
- the Post-Congres excursion - Rupelian (1000,- FB/500,- FB) YES/NO
- Tongrian, Landenian (1000,- FB/500,- FB) YES/NO

Payment will be made by enclosed cheque or by bank transfer to 000.0145219.10.
